Tip Tinner “Lead Free” RoHS Compliant

All the major manufacturers of soldering tips have one thing in common, they all recommend that you “Tin Your Soldering Tips”. I.C. Lead Free Tip Tinner has been formulated to prolong soldering tip life in the harsh environment of No Clean and Water Soluble Fluxes.

• NO HALIDES • RESIDUE FREE • ROSIN FREE • ENVIRONMENTALLY SAFE

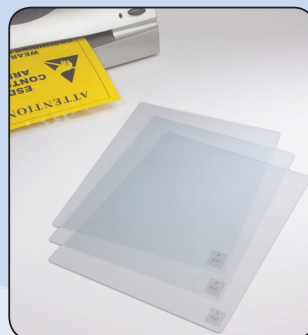

Micro Fiber Cloth Cleans While it Kills Germs

Our antibacterial micro fiber cloth removes germs from display surfaces such as cell phones, glasses and screens. Then germs are killed within the cloth. Can be washed up to 30 times.

ESD Lamination Sheets

Our 10⁹ Laminating sheets will work with any standard document laminating system. Available in 8.5” x 11” and 12.25” x 17”

I.C. Foaming Hand Sanitizer

I.C. Foaming Hand Sanitizer has a distinct advantage over gelled alcohol hand sanitizers. While both product forms are fast acting and allow for use without water or towels, our product gives the added benefits of being Non-Flammable, less drying to skin and will not stain clothing. Alcohol Hand Sanitizers can actually become less effective with repeated use and make the skin dirtier, not cleaner due to removal of protective natural skin oil and entrapment of dead skin cells by the polymer thickeners used in gelled alcohol products. Based on the active ingredient Benzalkonium Chloride in an unique nondrying, moisturizing and conditioning formulation. Kills 99.99% of most common germs that may cause illness in just 15 seconds and is NSF approved E3 for no-rinse hand sanitizing for food handlers.

I.C. Foaming Sanitizer formulated with Benzalkonium Chloride					
	MRSA	Staph	E. Coli	Salmonella	Pseudomonas
15 Seconds	99.99%	99.99%	99.99%	99.99%	99.99%

“Alcohol Free”

Body Glove Cream

A Pre-gloving “Paraben Free” moisturizing body glove cream formulated for the Medical, Pharmaceutical, Aerospace and Food Processing environments. Contains 4% Dimethicone which helps add a protective layer to the skin. This cream relieves chapping, skin flaking and skin sensitivity caused by Nitrile, Vinyl, and Latex Gloves. Loaded with 14 Botanicals and Succulents along with Vitamins A,D, & E for skin rejuvenation. 32 oz Tub.

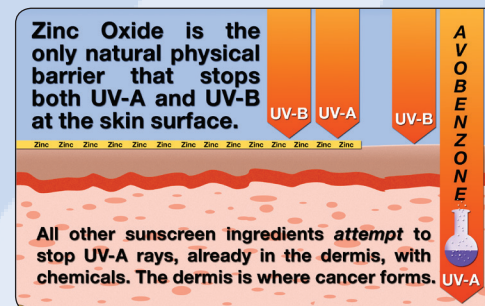

32oz and Gallon Wall Brackets are available

Physical Broad Spectrum Sunscreen SPF 30+

R&R Lotion Sunscreen is formulated with Clear Zinc Oxide which provides a Physical Barrier and acts like a million tiny mirrors on the surface of your skin reflecting both UVB & UVA rays. This Physical Sunscreen rubs in clear leaving no white residue. All of our Sunscreens are manufactured in the USA in a FDA Regulated Facility.

Meets World Wide Standards

WARRANTY: All R & R Lotion products are sold with the understanding that the purchaser has independently determined the suitability of such products for its own purposes. At no time does R & R Lotion assume responsibility for claims beyond the replacement value of our products.

R&R LOTION

R&R Lotion is a Boutique USA
FDA Registered Manufacturer of:

Lotions • Creams • Sunscreen
Cleaners • Sanitizers
Static Dissipative ESD Safe Bottles

What Makes Our Lotions Superior

No Silicones

- Can cause pores and skin irritation.
- May keep Sebum, Dirt and Bacteria inside the skin

No Lanolins

- Derived from Wool Wax and can repel moisture from the skin surface
- Can also cause allergic reactions
- May cause Chronic Eczematous Dermatitis

No Mineral Oils

- Cannot be absorbed into the body
- Seals the skin, clogs pores, attracts dirt and pulls essential minerals from the skin
- In addition, it destroys the integrity of latex gloves

No Glycerins

- Can draw moisture from the lower layers of the skin and hold it on the surface, which can dry the skin from the inside out

Manufactured with Deionized Water

- We only use Deionized Water, which takes all mineral ions, impurities, trace contaminants, calcium and salts out of the tap water and makes it ultra clean. Since water makes up over 90% of any lotion, it is imperative that the lotion be manufactured with the cleanest, most pure water

All of Our Lotions and Hand Cleaners are CHG Compatible

Meets ESD-TR20.20.

Meets ESD-TR20.20.

32oz Refillable Wall Dispensers

Our 32oz refillable wall dispensers for hand cleaners, sanitizers, lotions and sunscreens. Floor stand, refillable cartridges and refilling funnel available.

Clean Room Safe Static Dissipative Bottles

- Static Free •Non-Greasy •No Tertiary Amines •Humidity Independent
- Average Surface Resistivity of 10^9 to $10^{10} \Omega/\text{Square}$ •Helps to Meet ESD-TR20.20

R & R Lotion has developed a new process of molding polyethylene bottles utilizing a concentrate that does not contain any Exthoxylated Tertiary Amine, which is widely used as an antistatic agent. These ESD safe bottles have an average surface resistivity of 10^9 to $10^{10} \Omega/\text{square}$ and do not have any less desirable features associated with surfactant laden material. These bottles will dissipate a static charge of $\pm 5000V$ in less than two seconds. By their chemical nature, they will not have any chemical reactivity with solvents as TCE or alcohol. The pH of the deionized water solutions tested were that same before and after a seven day period. No color change or any other physical change was noted for any solvents tested. Competitively priced with existing static generating containers.
