About Transforming Technologies

Transforming Technologies provides comprehensive knowledge of electrostatic issues, effective solution-oriented products and outstanding, friendly service. Since 1998, Transforming Technologies has provided critical solutions to the numerous manufacturing problems associated with static electricity. We provide a wide range of unique and outstanding products to detect, protect, eliminate and monitor electrostatic charges. Our products are key tools used by industries to assure an effective static control program.

Contact Information

Phone: 419-841-9552
 Fax: 419-841-3241
 Email: sales@transforming-technologies.com
 Online: www.transforming-technologies.com

Hours:

Monday - Friday
 8:30am - 5:30pm

Address

Transforming Technologies, LLC
 3719 King Road,
 Toledo, Ohio 43617

Terms and Conditions:

Terms: Net 30 days are extended to customers with approved credit.

Payment: Transforming Technologies accepts Check, ACH or Wire Transfer, VISA, MasterCard and American Express.

Taxes: Applicable sales tax will be added to all orders. Customers who are exempt from sales tax will need to provide documentation.

Warranties: Transforming Technologies expressly warrants that for a period of one (1) year from the date of purchase, products will be free of defects in material (parts) and workmanship (labor). Within the warranty period, a unit will be tested, repaired or replaced at Transforming Technologies option, without charge. Call our Customer Service Department for a Return Material Authorization (RMA) and proper shipping instructions and address. Any unit under warranty can be shipped collect to the Transforming Technologies factory. Warranty replacements will take approximately two weeks. If your unit is out of warranty; call our Customer Service Department at 419-841-9552 for a Return Material Authorization (RMA) and proper shipping instructions and address. Transforming Technologies will quote repair charges necessary to bring your ESD unit up to factory standards.

Limit of Liability: In no event will Transforming Technologies, its representatives or resellers be responsible or liable for any injury, loss or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, potential users shall determine the suitability of the product for their intended use, and users assume all risk and liability.

F.O.B. Point: Unless embodied in a written agreement signed by authorized officers of Transforming Technologies the F.O.B. point for all products purchased from Transforming Technologies will be the F.O.B. factory. Stock orders received by 2:30 pm EST will be shipped the same day if possible.

Out of Warranty Repair: Field repair or unauthorized tampering of Transforming Technologies products is not recommended and will nullify any and all warranties. All Transforming Technologies items to be repaired must be returned to the factory. Transforming Technologies will quote repair cost upon receipt and inspection of product. Repaired product will include a 60 day warranty. A Return Merchandise Authorization number (RMA#) must be obtained from Transforming Technologies for out of warranty repairs. The RMA number must appear on the outside of returned cartons, and Transforming Technologies has the right to refuse all return shipments which do not bear the RMA number or which are shipped freight collect. Customer is responsible for all freight and transportation charges.

Cup Style Heel Grounders

Features

Cup Style Heel Grounders are made with a symmetrical design that can be reversed when worn to reduce wear and tear. They feature a dual layer rubber with a non-marking inside and a conductive black outside. A 1meg resistor and a 18" conductive ribbon are standard.

Specifications:

- Resistor: 1 Meg
- Strap: Stretch Velcro
- Rubber Exterior: <10⁵ohms
- Size: 1.25" Wide
- Ribbon: 18" Conductive Yarn
- Closure: Velcro

Part Numbers

| | |
|---------|-----------------------------|
| HG1360 | Cup, Stretch Velcro, Black |
| HG1360R | Cup, Stretch Velcro, Red |
| HG1360B | Cup, Stretch Velcro, Blue |
| HG1370 | Cup, Stretch Velcro, Orange |

Four Colors Available!

Non-Marking Cup Style Heel Grounders

Features

Non-Marking Cup Heel Grounders will not leave scuff marks or blemishes on your floor to help keep your controlled environment clean. The HG1360NM2 is constructed from a non-marking and highly dissipative three layer rubber and a stretch velcro closure.

Specifications:

- Resistor: 1 Meg
- Color: Gray Rubber, Blue Elastic
- Rubber Exterior: <10 Meg
- Size: 1.5" wide
- Ribbon: 18" Conductive Yarn
- Closure: Stretch Velcro

Part Numbers

| | |
|-----------|--------------------------|
| HG1360NM2 | Blue, 1 meg, Non-Marking |
|-----------|--------------------------|

Sport Style Heel Grounders

Features

Sport Style Heel Grounders are designed for active wearers and are ideal for boots and cross-training athletic shoes. A highly visible elastic back strap forms to the heel, ensuring proper fit. A Non-Marking version is available.

Specifications:

- Resistor: 1 Meg
- Color: Blue, Red Elastic
- Rubber Exterior: <10⁵ohms
- Size: 1.37" Wide
- Ribbon: 18" Conductive Yarn
- Closure: Velcro, D-ring or Non-Marking

Part Numbers

| | |
|----------|--------------------------|
| HG1590 | Sport , 35mm, Velcro |
| HG1594 | Sport , 35mm, D-Ring |
| HG1590NM | Sport , 35mm,Non-Marking |

Hi-Visibility Style Heel Grounders

Features

The Hi-Visibility Heel Grounder is constructed from durable materials and features a hi-visibility yellow/green velcro closure for easy identification in the work area.

Specifications:

- Resistor: 1 Meg
- Color: Hi-Vis Elastic
- Rubber Exterior: <10⁵ohms
- Size: 1.37" Wide
- Ribbon: 18" Conductive Yarn
- Closure: Velcro

Part Numbers

| | |
|---------|------------------------------|
| HG1390S | Hi-Vis Yellow, 1 Meg, Velcro |
|---------|------------------------------|

Sole Grounders**Features**

Full Coverage Sole Grounders are designed to provide maximum surface contact. The benefit of wearing a sole grounder is always maintaining contact with the floor surface whether on heel or toe. Comes in 1 meg or 2 meg versions.

Specification:

- Resistor: 1 Meg or 2 Meg
- Color: Black, Blue Strap
- Rubber Exterior: $<10^5$ Ohms
- Size: Full Sole Coverage
- X-Small, Small, Med, Large
- Closure: Elastic

Part Numbers

| | |
|--------|-----------------------------|
| HG6005 | Sole Ground, 1 Meg, X-Small |
| HG6010 | Sole Ground, 1 Meg, Small |
| HG6020 | Sole Ground, 1 Meg, Med |
| HG6030 | Sole Ground, 1 Meg, Large |
| HG6052 | Sole Ground, 2 Meg, X-Small |
| HG6012 | Sole Ground, 2 Meg, Small |
| HG6022 | Sole Ground, 2 Meg, Med |
| HG6032 | Sole Ground, 2 Meg, Large |

Non-Marking Sole Grounders**Specifications:**

- Non-Marking
- Color: Yellow Rubber, Blue Strap
- Rubber Exterior: $<10^{10}$ meg
- Size: Full Sole Coverage
- X-Small, Small, Med, Large

Part Numbers

| | |
|--------|-----------------------------|
| HG9001 | Non-Marking, 1 Meg, X-Small |
| HG9002 | Non-Marking, 1 Meg, Small |
| HG9003 | Non-Marking, 1 Meg, Med |
| HG9004 | Non-Marking, 1 Meg, Large |

**Specifications:**

- Hi-Visibility Yellow
- Non-Marking
- Color: Yellow Rubber, Yellow Strap
- Rubber Exterior: $<10^{10}$ meg
- Size: Full Sole Coverage
- X-Small, Small, Med, Large

Part Numbers

| | |
|--------|-----------------------------|
| HG9010 | Non-Marking, 1 Meg, X-Small |
| HG9020 | Non-Marking, 1 Meg, Small |
| HG9030 | Non-Marking, 1 Meg, Med |
| HG9040 | Non-Marking, 1 Meg, Large |

Disposable Heel Grounders**Features**

Disposable Heel Grounders are a single use, economical solution for temporary personnel who enter static controlled environments with ESD flooring. Secures to footwear with a non-damaging adhesive.

Specifications:

- Material: Non-Woven Polyester with Carbon
- Color: Black, Yellow
- RTG: $> 1 \times 10^5 - < 3.5 \times 10^7$
- Adhesive Strip Secures Strap to Footwear

Part Numbers

| | |
|---------|-----------------|
| HG4560 | Disposable, 12" |
| HG4560L | Disposable, 24" |

Toe Grounders**Features**

Toe Grounders are perfect for a wide variety of heeled shoes. Constructed from durable materials and featuring a comfortable elastic closure, the HG2520 provides protection for staff on the move.

Specifications:

- Resistor: 1 Meg
- Color: Black Stretch Velcro
- Rubber Exterior: $<10^5$ Ohms
- Size: 35mm Wide
- Closure: Elastic

Part Numbers

| | |
|--------|---------------------|
| HG2520 | Toe Grounder, Black |
|--------|---------------------|

Disposable Shoe Covers**Features**

The plain sole bottom shoe covers are made from two (2) pieces of heavy-weight polypropylene and work well when worn inside laundered boot covers.

Specifications:

- Material: 100% Virgin Polypropylene
- Weight 1.25oz (40 gm)
- Color: Blue
- Surface Resistance: $<10^6$ Ohms
- Size: Universal

Part Numbers

| | |
|---------|-----------------------|
| SC1206C | Disposable Shoe Cover |
|---------|-----------------------|

Metal Dual Wire Wrist Strap Sets

Features

Dual Wire Wrist Straps provide redundancy; even if one dual wire wrist strap conductor is severed, the operator has reliable path-to-ground with other wire. The expandable metal band features a single mono jack fastener capable of reading both sides of the wrist strap. Used with dual wire constant monitors.

Specifications:

- Expandable Speidel Metal Band: Small, Medium, Large
- Color: Black Band, Gray Cord
- Two Conductive Paths
- Compatible with Most Dual Wire Constant Monitors
- Right Angle Coil Cords Available

Compatible with Resistance Monitors on page 7.

Part Numbers

| | |
|----------------|-----------------------------------|
| WB5050(Size*) | Dual Metal, 5', Size* |
| WB5100(Size*) | Dual Metal, 10', Size* |
| WB5200(Size*) | Dual Metal, 20', Size* |
| WB5050(Size*)R | Dual Metal, 5', Rt. Angle, Size* |
| WB5100(Size*)R | Dual Metal, 10', Rt. Angle, Size* |
| WB5200(Size*)R | Dual Metal, 20', Rt. Angle, Size* |
| WB0050(Size*) | Dual Metal Band Only, Size* |

*Size: (S) Small, (M) Medium or (L) Large for size

Fabric Dual Wire Wrist Strap Sets

Features

The one-size-fits-all WB7000 Dual Conductor Fabric Wrist Bands feature a silver plated, monofilament, continuous thread woven together with elastic nylon for full conductivity and comfort. Used with dual wire constant monitors.

Specifications:

- Comfortable Elastic Band
- Color: Blue Band, Gray Cord
- Two Conductive Paths
- Compatible with Most Dual Wire Constant Monitors

Part Numbers

| | |
|---------|--|
| WB7050 | Dual Fabric, 5', Turquoise |
| WB7100 | Dual Fabric, 10', Turquoise |
| WB7200 | Dual Fabric, 20', Turquoise |
| WB7050R | Dual Fabric, 5', Turquoise, Rt. Angle |
| WB7100R | Dual Fabric, 10', Turquoise, Rt. Angle |
| WB7200R | Dual Fabric, 20', Turquoise, Rt. Angle |
| WB0070 | Band Only |

Dual Wire Wrist Strap Sets

Features

The adjustable WB2500 series features two 4mm snaps and 180 degree conductive paths around the wrist, providing maximum skin contact. The double snap coil cords provide two conductive paths to ground. Used with dual wire constant monitors.

Specifications:

- Polyester with Silver-Plated Nylon Fabric Band
- Color: Maroon
- Two 4mm Snaps
- Dual Wire Coil Cord: 6' or 12'
- Compatible with Most Dual Wire Constant Monitors

Part Numbers

| | |
|--------|------------------------|
| WB2580 | Dual Snap, 6', Maroon |
| WB2585 | Dual Snap, 12', Maroon |
| WB0025 | Band Only, Maroon |

Disposable Wrist Bands

Features:

Designed for inclusion with ESD sensitive devices such as computer components to provide protection at the customer's site. Made from a non-woven fabric impregnated with conductive polymer. Adhesive on a copper foil is used for easy contact to any electrical ground.

Specifications:

- Safe, Effective and Economical Ground Strap
- Non-Woven Fabric Impregnated with a Conductive Polymer
- Conductive Adhesive for Secure Connection to Ground

Part Numbers

| | |
|--------|-----------------------|
| WB5407 | Disposable Wrist Band |
|--------|-----------------------|

Single Wire Wrist Strap Sets**Features**

Single Wire Wrist Strap sets are a versatile and effective method of grounding personnel that allows the skin to breathe. The band uses hypoallergenic silver-plated nylon thread for conductivity paired with 6' or 12' coil cords. The band is standard with a 4mm snap, but 7mm and 10mm are available.

Specifications:

- Hypoallergenic Fabric Band
- Resistor: 1 Meg
- Three Snap Sizes Available
- Available in Maroon in a 4mm Snap

Two Colors and Three Snap Sizes Available!**Part Numbers**

| | |
|--------|----------------------------------|
| WB1637 | Set, 6', 4mm Blue fabric band |
| WB1643 | Set, 12', 4mm Blue fabric band |
| WB1738 | Set, 6', 7mm Blue fabric band |
| WB1744 | Set, 12', 7mm Blue fabric band |
| WB1839 | Set, 6', 10mm Blue fabric band |
| WB1845 | Set, 12', 10mm Blue fabric band |
| WB2637 | Set, 6', 4mm Maroon fabric band |
| WB2643 | Set, 12', 4mm Maroon fabric band |
| WB0016 | Band Only, 4mm, Blue |
| WB0017 | Band Only, 7mm, Blue |
| WB0018 | Band Only, 10mm, Blue |
| WB0026 | Band Only, 4mm, Maroon |

Metal Single Wire Wrist Strap Sets**Features**

Fully adjustable metal wrist strap sets are made from stainless steel and contain no carbon which makes it an ideal solution for cleanroom environments. High quality construction make metal wrist bands very durable.

Specifications:

- Adjustable Metal Band
- Resistor: 1 Meg
- Premium Coil Cord
- Cleanroom Compatible
- Stainless Steel Construction

Part Numbers

| | |
|--------|--------------------------|
| WB6037 | Set, 6', 4mm Metal Band |
| WB6043 | Set, 12', 4mm Metal Band |
| WB6014 | Band Only |

Hinged Single Wire Wrist Strap Sets**Features**

High quality hypoallergenic fabric wrist band features a unique locking snap face clasp that eliminates excess wrist band material. Paired with a premium coil cord in 6' or 12' lengths.

Specifications:

- Hypoallergenic Fabric Band
- Resistor: 1 Meg
- Hinged Clasp Secures Excess Fabric Band
- Color: Blue Strap, Black Cord
- Premium Coil Cord

Part Numbers

| | |
|--------|---------------------------|
| WB8037 | Set, 6', 4mm Hinged Band |
| WB8043 | Set, 12', 4mm Hinged Band |
| WB8014 | Band Only |

Anti-Allergy Single Wire Wrist Strap Sets**Features**

The ideal grounding device for people with allergies to common metals. It features hypoallergenic silver-plated nylon thread for conductivity and the back plate has a plastic cover so that metal does not come in contact with skin.

Specifications:

- Hypoallergenic Fabric Band
- Plastic Back Plate Covers All Metal
- 1 Meg Resistor
- Color: Maroon Band, Black Cord

Part Numbers

| | |
|--------|----------------------------|
| WB5637 | Set, 6', 4mm Machine Snap |
| WB5643 | Set, 12', 4mm Machine Snap |
| WB5026 | Band Only |

Single Wire Coil Cords

Specifications:

- Premium Flat Face Snap for Solid Connection to Wrist Band
- Short Swivel Type Banana
- 2.5 mm Polyurethane Coil Insulation
- Lengths: 6', 12', and 20'

Part Numbers

| | |
|---------|---------------------------------------|
| CC9037 | Coil Cord, 6', 1 Meg, 4mm |
| CC9043 | Coil Cord, 12', 1 Meg, 4mm |
| CC9037R | Coil Cord, 6', Rt. Angle, 1 Meg, 4mm |
| CC9043R | Coil Cord, 12', Rt. Angle, 1 Meg, 4mm |
| CC9020 | Coil Cord, 20', 1 Meg, 4mm |

Specifications:

- Classic Molded Snap
- Swivel Type Banana Jack
- 2.5 mm Polyurethane Coil Insulation
- Snap Sizes: 4mm; 7mm; 10mm

Part Numbers

| | |
|--------|-----------------------------|
| CC0037 | Coil Cord, 6', 1 Meg, 4mm |
| CC0038 | Coil Cord, 6', 1 Meg, 7mm |
| CC0039 | Coil Cord, 6', 1 Meg, 10mm |
| CC0043 | Coil Cord, 12', 1 Meg, 4mm |
| CC0044 | Coil Cord, 12', 1 Meg, 7mm |
| CC0045 | Coil Cord, 12', 1 Meg, 10mm |

Dual Wire Coil Cords

Specifications:

- Double Insulated Jacket
- Stainless Steel Tip
- Plug Tip Diameter: 3.0 mm
- Available in with a Right Angle Plug
- Compatible with Dual Conductor Constant Monitors

Part Numbers

| | |
|---------|----------------------------------|
| CC3050 | Dual Wire, 6', 1 Meg |
| CC3100 | Dual Wire, 10', 1 Meg |
| CC3200 | Dual Wire, 20', 1 Meg |
| CC3050R | Dual Wire, 6', 1 Meg, Rt. Angle |
| CC3100R | Dual Wire, 10', 1 Meg, Rt. Angle |
| CC3200R | Dual Wire, 20', 1 Meg, Rt. Angle |

Specifications:

- Double Insulated Jacket
- Two 4mm Snaps
- Banana: 3.5mm Phono Plug
- Right Angle Plug
- Compatible with Dual Conductor Constant Monitors

Part Numbers

| | |
|--------|----------------------------------|
| CC2080 | Dual Wire, 6', 1 Meg, Rt. Angle |
| CC2085 | Dual Wire, 12', 1 Meg, Rt. Angle |

Dual Wire Coil Cords

Specifications:

- Parking Jack On Snap Head
- Two 4mm Snaps
- Banana: 3.5mm Phono Plug
- Compatible with Dual Conductor Constant Monitors

Part Numbers

| | |
|------------|----------------------------------|
| CC2695P-5 | Dual Wire, 5' Parking Jack, 4mm |
| CC2695P-10 | Dual Wire, 10' Parking Jack, 4mm |
| CC2695P-20 | Dual Wire, 20' Parking Jack, 4mm |

Interconnect Coil Cords

Specifications:

- Two Banana Plugs
- 8 feet Long
- No Resistor

Dual Wire Constant Monitors

The Resistance Ranger Series is the most reliable workstation monitoring system available. The extremely sensitive monitors accurately measure the electrical resistance of an ESD wrist band and work surface and signals if the devices fail. Audible and visible alarms are triggered if the operator's resistance exceeds 35 meg ohm or if the work surface exceeds 100 meg ohm. The Ranger Series saves time by eliminating time consuming testing and logging of wrist straps and coil cords.

RESISTANCE
RANGER
CONSTANT MONITORS

Features:

- RangerOne: One Operator
- RangerTwo: One Operator and One Work Surface
- Ultra Low Body Voltage

Compatible with dual wire wrist straps on page 4.

Two Layer Rubber

MT Series heavy-duty rubber matting is designed to be used on workbenches and ESD-safe test stations. This exceptional 2-layer static dissipative mat is manufactured from premium NBR rubber for a long lasting life. It is resistant to hot solder and chemical abrasion. The static dissipative top layer is backed by a conductive bottom layer for outstanding electrical properties. Versatile product with superior flat laying properties.

Textured Two Layer Rubber

The MT-Textured series is an exceptional 2-layer table mat composed of an embossed nitrile rubber on top and a natural rubber and styrene-butadiene rubber on the bottom. This material meets the industry standards per ANSI/ESD STM4.1 for resistance and the federal standard 101 method 4046 for static decay.

- RTG: 10^6 - 10^8 ohms
- RTT: 10^6 - 10^8 ohms
- Elongation 125% Minimum
- Tear 150 lb/in Minimum

**Three Layer Vinyl with Foam Back**

VinylStat B utilizes a unique three layer design consisting of a conductive metalized fleece sandwiched between a solid, vinyl top surface and an ergonomic foam layer base. Resistant to degradation by inorganic acids, organic acids, reducing agents, detergent solutions, alcohols, aliphatic hydrocarbons, mineral oil, amines, and aldehydes.

- RTT: 10^6 - 10^8 ohms
- Elongation: 110% Minimum
- Tear 80lb/in Minimum
- Gauge: VinylStat C: 0.093"
VinylStat D: 0.0625"

ESD Safe Workstation Kits

Everything you need to set up an ESD safe workstation in one box. The Transforming Technologies Workstation Kits feature an ESD rubber table mat and floor mat complete with a wrist strap and ground cords. Choose from the following floor mats: 0.080" rubber, 0.375" vinyl anti-fatigue, Comfort Dome™ bubble mat, or a 0.125" V-groove floor runner. Included in each kit is a low profile common point ground cord, floor mat cord, and fabric wrist band set.

Part Numbers

TTB12436 2' x 3' Rubber Table Mat,
3' x 5' Vinyl Anti-Fatigue Mat

Part Numbers

TTB22436 2' x 3' Rubber Table Mat,
3' x 4' Comfort Dome™ Mat

Part Numbers

TTB32436 2' x 3' Rubber Table Mat,
3' x 5' Rubber Mat

Part Numbers

TTB42436 2' x 3' Rubber Table Mat,
3' x 5' Vinyl Floor Runner

Field Service Kit

The FSM2424 Field Service Mat is made from a rugged, three-layer embossed PVC material and provides service personnel with a static free work area for handling sensitive devices. The 24" x 24" mats edges are bound for durability and the outer layer is resistant to punctures and tears. A buried conductive layer provides reliable decay of static charges. Lightweight and easy to fold for storage.

Specification:

- Two 10mm Male or Female Snaps
- Color: Blue or Red
- Two 8" x 12" Pockets
- Adjustable WB1637 Fabric Wrist Band Set
- CP1518 Ground Cord with Bull Dog Clip
- Surface Resistance : $>1 \times 10^6 - <1 \times 10^9$

Comfort Gel™ Anti-Fatigue Mats

The Comfort Gel™ Anti-Fatigue matting is developed to prevent worker fatigue where static control is an issue. The extremely comfortable mat is constructed from a close cell rubberized gel foam and can be cleaned for controlled environments.

| Size | Part No. |

- Thickness: 0.625"
- RTT: 5.68×10^7
- Emboss Pattern: Pebble

Comfort Dome™ Anti-Fatigue Mats

Comfort Dome™ ESD Anti-Fatigue is a 100% conductive rubber molded dome that provides unparalleled comfort in areas where static control is a concern. Evenly spaced domes on the surface of the mat provides superior anti-fatigue relief and slip resistance. Available in single work area mats or in interlocking sections for long assembly lines.

**VinylStat Anti-Fatigue Mats**

VinylStat Anti-Fatigue Mats are constructed with a closed-cell expanded PVC and available in brown or gray. They are available in single work area mats or runners for long assembly lines. Worker fatigue has been shown to lower productivity and morale which has a large impact on profitability. Damage due to static can have a similar drain on the bottom line. Solve both problems with the VinylStat anti-fatigue matting.

ESD Chair Mats

The ESD Chair Mats are the perfect floor covering for rolling chairs when static protection is a priority. The ESD Chair Mats are made of rigid solid vinyl with a buried conductive layer, giving it consistent electrical properties. Available in runners, workstation mats, and office-style desk mats.

| Size | Part No. | Size |

- Emboss Pattern: Pebble

Floor Tiles

This ESD matting is capable of tolerating the heavy loads and harsh conditions associated with industrial environments while providing an ESD-safe area for people required to stand for long periods of time. Safety ramp edging, in matching black or high visibility yellow, ensures a safer transition to and from the ESD work area. The interlocking design makes the flooring simple to install and easy to configure.

| Part No. | Type |
|----------|-------------------------------------|
| PV3010 | ESD Tile - 20"x20"x1" |
| PV3110 | Female Edge Yellow- 4" X 20" |
| PV3112 | Male Edge Yellow- 4" X 20" |
| PV3114 | Corner Female Edge Yellow- 4" X 20" |
| PV3116 | Corner Male Edge Yellow- 4" X 20" |
| PV3210 | Grounding Plate |

Specification:

- Meets ESD Industry Standards
- Firm, Low Compression, Tolerates Harsh Conditions
- Size: 20" x 20" x 1"
- RTT: 1×10^5 to 5×10^8

Common Point Grounds**Features:**

- 15' long
- Molded 1meg Resistor
- Two Banana Jacks
- #10 Ring Terminal
- Male 10mm Snap
- Bulldog Clip Available

Part Numbers

CP1518 Common Point Ground, Male
 CP1518BD Common Point Ground, Female

**Features:**

- 15' long
- Molded 1meg Resistor
- Two Banana Jacks
- #10 Ring Terminal
- Male 10mm Snap

Part Numbers

CP2522 Low Profile Common Point, Male
 CP2524 Low Profile Common Point, Female

**Features:**

- 15' long
- Molded 1meg Resistor
- Four Banana Jacks
- #10 Ring Terminal
- Male 10mm Snap

Part Numbers

CP4822 Low Profile Common Point Ground, Male

**Features:**

- Metal Bench Mount Ground
- 15' Long
- #10 Ring Terminal
- Two Banana Jacks
- Two Parking Studs

Part Numbers

CP4070 Metal Mount Ground

Floor Mat Grounds**Features:**

- Low Profile Molded Head
- 15' Long
- #10 Ring Terminal
- Male or Female 10mm Snap

Part Numbers

FM1515 Floor Ground, Male
 FM1517 Floor Ground, Female

Field Service Grounds**Features:**

- Wrist Band Section: 10'
- Ground Cord Sections: 5'
- #10 Ring Terminal
- Molded Male Center Snap

Part Numbers

FM2000 Field Service Ground, Two Snaps, Banana

Grounding Hardware**Features:**

- Push and Clinch Snaps
- Pronged 10mm Sockets
- 10mm Studs.
- Easily Installs Onto Multi-layer Rubber or Vinyl.

Part Numbers

CS1010 Clinch Snap, 10mm, Female
 CS1020 Clinch Snap, 10mm, Male

**Features:**

- Universal Snap Kit 10mm Socket & Stud
- Two Screw Lengths
- Base and Washer

Part Numbers

CS1090 Universal Snap Kit

**Features:**

- Provides Easy Access to a Properly Tested AC Equipment Ground
- Size: (0.162" - 0.164" ± 0.002" ID)
- Color: Black

Part Numbers

AD22 Ground Outlet Adapter

**Features:**

- Molded Stacking Snap
- Male and Female Snap
- Accepts Banana Plug

Part Numbers

CS0127 Molded Banana, 10mm Stud & Socket

BFN AC Ionizers

BFN AC Ionizers

The BFN series ionizers, with inherently stable AC technology, provides excellent balance and rapid charge decay for secure workstation protection. The BFN series use corona ionizing technology to produce a balanced output of positive and negative air ions. Typical ion balance of the BFN series is less than ± 10 volts and decay times can be less than 2 seconds (1000v to 100v per ANSI/ESD STM3.1). The BFN series is available in four models and each is ruggedly built using a steel enclosure and quality components. Regular cleaning of the emitter points is made easy on the BFN series ionizers as they include integrated emitter point cleaners.

All BFN Model Ionizers Include:

- A Full 1 Year Warranty
- CE Certification
- Integrated Emitter Point Cleaners
- Titanium Alloy Emitter Points for Long Life
- Rugged Steel Enclosures

BFN802 & BFN803 Overhead Ionizers

The BFN overhead ionizing blowers combine excellent ESD performance with user friendly features to create the premier overhead ESD workstation solution. The ionizers are equipped with energy efficient LED task lights to help alleviate eye strain and headaches - all while saving on energy costs. User friendly features such as integrated emitter point cleaners, removable front and rear fan guards, and safety switches provide for safe operation and easy maintenance access.

Features:

- Two and Three Fan Versions
- High Efficiency LED Lighting
- Overhead Installation Frees Up Workspace
- Integrated Emitter Cleaners
- Removable Finger Guards with Auto Shut-Off Sensor
- Typical Balance: ± 10 volts

BFN802 Specifications:

Decay Time: <3 sec. @ 18"
 Size: 6.75"H x 23"W x 3.35"D
 Weight: 12.8lbs
 Power: 120VAC, 60 Hz., 70W
 220VAC, 50 Hz.
 Air Volume Output:
 (Low)100 CFM - (High) 200 CFM
 Effective Coverage: 2' x 3' area

BFN803 Specifications:

Decay Time: <3 sec. @ 18"
 Size: 6.75"H x 38.78"W x 3.35"D
 Weight: 18.7lbs
 Power: 120VAC, 60 Hz., 70W
 220VAC, 50 Hz.
 Air Volume Output:
 (Low)150 CFM - (High)300 CFM
 Effective Coverage: 2' x 4' area

BFN801 Bench Top Blower

The BFN801 bench top ionizing blower, with inherently stable AC technology, provides excellent balance and rapid charge decay for secure workstation protection. Designed to protect the most sensitive electronic devices, the BFN801 uses corona ionizing technology to continuously produce a balanced output of positive and negative air ions to neutralize static charges.

Features:

- Small Footprint Frees Valuable Work Space
- Removable Finger Guards with Auto Shut-Off Sensor
- Rugged Steel Construction
- Typical Balance: ± 10 volts

Specifications:

Decay Time: <2 sec. @ 12"
 Size: 10.25"H x 7"W x 3.75"D
 Weight: 8.25lbs
 Power: 120VAC, 60 Hz., 36W
 220VAC, 50 Hz.
 Air Volume Output:
 (Low) 50 CFM- (High) 100 CFM
 Effective Coverage: 1' x 5' Area

**BFN8412 Extended Range Blower**

The BFN8412 extended range ionizing blower, with AC technology, provides excellent balance and stability for secure workstation protection. Designed to cover a broad 3' x 6' area, the BFN8412 uses AC technology to continuously produce a balanced output of positive and negative air ions. An integrated heater warms the air for operator comfort.

Features:

- Reliable AC Output
- Extended Performance Range
- Integrated Heater and Emitter Cleaner
- Removable Finger Guards with Auto Shut-Off Sensor
- Typical Balance: ± 10 volts

Specifications:

Decay Time: <1.5 sec. @ 12"
 Size: 10.25"H x 7"W x 3.75"D
 Weight: 15.2lbs
 Power: 120VAC, 60 Hz., 350W(max)
 220VAC, 50 Hz.
 Air Volume Output: 50 CFM - 230 CFM
 Effective Coverage: 3' x 6' area

IN1200 Series Ion Bars

With the combination of pulsed Dual DC technology and a unique design, the IN1200 provides uniform static elimination at high speeds. The IN1200 quickly and efficiently controls static in mini-environments, laminar flow hoods and wide-area workstation applications. It is a highly effective tool in electronics, plastics, chemicals, printing, textile, optical and other industries. Available in 22", 44" or 64" lengths.

Features:

- Pulse Dual DC Ionizing Technology
- Unique Aerodynamic Design
- Patented Molded Emitter
- LED Readout

Specifications:

Decay Time: <2 sec. @ 12"
 Length: L 22", 44" and 64"
 Power: 120VAC, 60 Hz., 36W
 220VAC, 50 Hz.
 Air Pressure: 70psi

Patented Molded Emitter

Ptec™ Ionizer Technology

Ptec™ static elimination devices use a specialized piezo technology that offers exceptionally fast static decay capabilities with excellent balance stability, all in a small footprint. Ptec™ ionizers produce a 68KHz AC output of approximately 2200V and a continuous stream of balanced air ions. Ptec™ ionizers save time and money because they require no calibration. Emitter life is increased and maintenance frequency is reduced due to 68KHz AC ion emission.

All Ptec™ Ionizers Include:

- A Full 1 Year Warranty
- CE Certification
- High Voltage Alarm
- Titanium Alloy Emitter Points for Long Life

IN6430 Ionizing Gun

IN6430 ionizing air gun integrates best-in-class AC performance as well as mechanical and ergonomic design features into a superior and affordable package. We eliminate high voltage cables by locating the power supply in the ionizing gun handle. Our OSHA compliant emitter nozzle protects both the operator and ionizer.

Features:

- Fast Charge Decay
- Integrated Air/Power Cable
- Optional .01 Micron Filter
- Balanced to 0±30 Volts

Specifications:

Decay Time: <2 sec. @ 12"
 Size: Hand Unit: 8.5"H x 4"W x 1"D
 Console: 3.5"H x 6.25"W x 1.5"D
 Weight: 1.12lbs
 Air/Gas Pressure: 20psi min, 75psi max
 Power: 100-240 VDC, 50/60Hz., un-fused, 0.5A or 1.0A max

IN5110 Bench Top Blower

The IN5110 AC air ionizer is a high frequency unit that provides both reliability and performance. A lightweight and compact design combined with an adjustable blowing angle makes the IN5110 a versatile bench top solution.

Features:

- Ionization Indicator and Alarm Light
- Variable Fan Speed Control
- Typical Balance: ±10volts

Specifications:

Decay Time: <2 sec. @ 12"
 Size: 7.5"H x 7.1"W x 2.7"D
 Weight: 2.8lbs
 Power: 24VDC, 12W, un-fused, 0.5A or 1.0A max
 Air Volume Output: 115 CFM, High Speed

IN5120 In-Tool Blower

Utilizing the small physical profile of the Ptec™ piezo technology, the IN5120 is small enough to fit inside many electronic manufacturing tools and powerful enough to provide reliable ESD protection. The IN5120 is especially useful in space-constrained applications.

Features:

- Compact Size
- Stable Ptec™ AC Output
- Ionization Indicator and Alarm Light
- Typical Balance: ±10Volts

Specifications:

Decay Time: <3 sec. @ 12"
 Size: 5.5"H x 5.5"W x 2.28"D
 Weight: 1.4lbs
 Power: 24VDC, 12W, un-fused, 0.5A or 1.0A max
 Air Volume Output: 32 CFM, High Speed

IN5130 Overhead Ionizer

The IN5130 easily provides fast static charge decay over a standard work surface area. The IN5130 overhead ionizers are designed to be daisy-chained for easy integration into the manufacturing environment.

Features:

- Stable Ptec™ AC Output
- Daisy-Chain Design
- Variable Fan Speed Control
- Balanced to 0±10 Volts

Specifications:

Decay Time: <6 sec. @ 24"
 Size: 2.5"H x 39.4"W x 5.75"D
 Weight: 11.0lbs
 Power: 100-240 VAC, 36W, un-fused, 0.5A or 1.0A max
 Air Volume: Output 300 cfm, High Speed

IN3425 Ionizing Nozzle

The IN3425 works efficiently with clean, dry air and nitrogen, and is capable of 100 psi input. Optional nozzle tips makes it extremely versatile, and its small size enables it to ionize hard to reach areas. Available with a photoelectric switch for automatic operation.

Features:

- Fast Charge Decay
- Optional Nozzle Tips
- Optional .01 Micron Filter
- Typical Balance: ±10volts
- Available with Photoelectric Switch (IN3425PE)

Specifications:

Decay Time: <1 sec. @ 24"
 Size: 2.0" x 7.1" x 2.7"
 Weight: 1.0lbs
 Air/Gas Pressure: 5psi min, 100 psi max
 Power: 24 VDC, 12W, un-fused, 0.5A or 1.0A max
 Gas Tube: 1/4" OD

Nozzle Tips:

A: N0010: Standard 15°
 B: N0020: Wide Angle
 C: N0030: Luer Lock
 D: N0040: Long Range
 E: N0050: Bendable
 F: N0060: Manifold

IN4000 Flexible Ionizing Nozzle

The IN4000 flexible nozzle neck frees the operator's hands during assembly and manufacturing processes. A foot pedal or photoelectric eye controls both ionization and airflow, which reduces compressed air costs and extends the life of the ionizer.

Features:

- Fast Charge Decay
- Flexible Metal Neck
- Works with IN3425 Nozzle Tips
- Optional .01 Micron Filter
- Footswitch or Photoelectric Eye Operation (IN4000PE)
- Typical Balance: ±10volts

Specifications:

Decay Time: <2 sec. @ 24"
 Size: 12"H x 5.75"W x 7.25"D
 Weight: 28lbs
 Power: 100-240VCA, 50/60Hz, un-fused, 0.5A or 1.0A max
 Air/Gas Pressure: 10psi min, 100 psi max
 Gas Tube: 1/4" OD

9010 ESD Jackets

Transforming Technologies 9010 ESD Jackets provide high quality ESD protection at great value with a light weight blend of 90% polyester and 10% conductive fiber fabric. The 9010 Series garments maintain consistent continuity readings for up to 100 wash cycles and are certified as a groundable garment, the highest ESD standard for garments. Features include a snap front closure, wrist-adjustment snaps, three roomy patch pockets, and lapel-style collars.

Features

- 90% polyester / 10% carbon
- Surface Resistivity: $<10^6$
- Garments are available in light blue, teal, maroon, white and black.
- Adjustable three snap cuff for proper fit.

Five Colors Available!

The 9010 Jackets' blend of polyester and cotton provides excellent ESD protection at great value.

Custom Embroidery Services

We offer custom logos and name identification on all of our jackets. We can print your logo, your name, or just about anything you can think of with no minimum order quantities. The markings are soft and breathable and designed to withstand washing for the life of the jacket.

- We can print almost any logo, design, or text
- Withstands multiple washings
- Markings are soft and breathable
- Markings will not crack or peel

5049 Cotton Poly ESD Jackets

The valuable combination of blending polyester and cotton makes 5049 garments more comfortable to wear than polyester garments. Superior workmanship provides reliable panel to panel continuity of the garment. The 5049 Series Garment maintains consistent continuity readings for up to 100 wash cycles. Available in a waist length jacket or full length lab coat.

Features

- 66% polyester / 32% cotton / 2% carbon fabric blend for a comfortable feel
- Surface Resistivity: 10^6
- Garments are available in blue and white
- Adjustable snap cuff for proper fit
- ESD cuff with snap-to-ground feature is also available.

Two Colors Available!

8812 Light Weight ESD Jackets

Transforming Technologies' lightweight garment, the 8812 jacket is the ideal tool for protecting your most sensitive products while keeping cool and comfortable. The 8812 is fabricated from 88% lightweight polyester and 12% carbon fabric for unmatched operator comfort. Superior workmanship provides reliable panel-to-panel continuity that maintains consistent readings for up to 100 wash cycles.

Features

- 88% Polyester / 12% Carbon Fabric
- Surface Resistivity: 6.98×10^5
- Available in Blue, White, and Maroon
- Lapel Collar or V-neck
- Adjustable Snap Cuff for Proper Fit
- Hip-to-Cuff Grounding is also Available

Three Colors Available!

The 8812 Series Jackets are light weight and breathable. Shown with knit cuffs.

High Temp ESD Hot Glove

Have static protection and heat protection in a clean room compatible glove. FG gloves use monofilament Nomex® woven fabric suffused with carbon fiber and enhance the heat protection with a 100% inner insulating tricot knit polyester fabric liner. Gloves resist up to 572° F (300°C). Available in 11" and 16" in Small, Medium, Large, XL and 2XL.

| GL9104 | ESD Hot Gloves 14" X-Large |

Inspection Gloves

ESD inspection gloves are designed to be worn when handling ESD susceptible items when cleanliness and tactile feel are important. The gloves are made with dissipative (10^5 - 10^8 ohms) conductive fibers to reduce charge generation. Available with polyurethane coated finger tips or palms to minimize fingerprints and scratches on film or other products. Sizes: X-small, Small, Med, Large, X-Large and 2X-Large.

Plain**Part Numbers**

| | |
|--------|-----------------------------|
| GL4501 | ESD Gloves, Plain, X-Small |
| GL4502 | ESD Gloves, Plain, Small |
| GL4503 | ESD Gloves, Plain, Med |
| GL4504 | ESD Gloves, Plain, Large |
| GL4505 | ESD Gloves, Plain, X-Large |
| GL4506 | ESD Gloves, Plain, 2X-Large |

Coated Palm**Part Numbers**

| | |
|---------|----------------------------|
| GL4501P | ESD Gloves, Palm, X-Small |
| GL4502P | ESD Gloves, Palm, Small |
| GL4503P | ESD Gloves, Palm, Med |
| GL4504P | ESD Gloves, Palm, Large |
| GL4505P | ESD Gloves, Palm, X-Large |
| GL4506P | ESD Gloves, Palm, 2X-Large |

Coated Finger Tips**Part Numbers**

| | |
|---------|------------------------------|
| GL4501T | ESD Gloves, Finger, X-Small |
| GL4502T | ESD Gloves, Finger, Small |
| GL4503T | ESD Gloves, Finger, Med |
| GL4504T | ESD Gloves, Finger, Large |
| GL4505T | ESD Gloves, Finger, X-Large |
| GL4506T | ESD Gloves, Finger, 2X-Large |

Ohm Metrics™ Test & Measurement

Useful, reliable tools for characterizing and identifying the electrical resistance of materials and the performance of personal grounding products.

- All Ohm Metrics™ products are designed to support ESDA Compliance Verification TR53.
- All Ohm Metrics™ products can be calibrated.
- All Ohm Metrics™ test and measurement products come with a 1 full year warranty.

Combo Test Stations

PDT700K

Easy, accurate, and time saving one-touch digital ground tester. Simultaneously and independently test both feet and a wrist strap while filtering out human body noise. The proactive “Near-Fail” indicator alerts the user that the ESD grounding device under test is nearing failure levels.

Features:

- Near-Fail Alert
- 100% Independently Test Both Feet
- Human Body Noise Filtration
- Wrist Strap Test Limits: 1Meg~35Meg Ohm (Default)
- Footwear Circuit : 1Meg~100Meg Ohm (Default)

PDT800K

Comprehensive, accurate tool to fully meet your daily ESD checking needs. Independently tests the left and right foot along with wrist band. Innovative LCD screen will instantly display the test result and the measured resistances. The proactive “Near-Fail” indicator alerts the user that the ESD grounding device under test is nearing failure levels.

Features:

- Digital Readout
- Near-Fail Alert
- 100% Independently Tests Both Feet
- Human Body Noise Filtration
- Wrist Strap Test Limits: 1Meg~35Meg Ohm (Default)
- Footwear Circuit : 1Meg~100Meg Ohm (Default)

GTS600K

Space saving, versatile combo grounding tester that allows for accurate and cost effective testing of ESD ground devices. A dual test circuits gives the option for both wrist strap and footwear testing and a positive rocker switch makes test mode selection easy.

Features:

- Positive Rocker Mode Selection Switch
- Wrist Strap Test Limits: 750K~10Meg Ohm (Default)
- Footwear Circuit : 750K~100Meg Ohm (Default)

GTS900K

Deluxe three-state touch tester designed for fast and accurate testing of ESD ground devices. A unique dual test circuit eliminates the need for separate wrist-strap and foot grounder testers which saves money and space.

Features:

- 100% Independently Tests Both Feet
- 9 Volt Test
- Molded Foot Plate
- Wrist Strap Test Limits: 750K~12Meg Ohm (Default)
- Footwear Circuit : 750K~120Meg Ohm (Default)

Digital High Resistance Tester**METRISO® 3000**

The METRISO® 3000 is a digital high resistance tester capable of measuring point-to-point resistance and resistance to ground measurements. The meter includes an integrated data logger with USB communication port for data transmission for up to 50,000 test values, temperature and relative humidity sensor, PC software, 2 probes, a hand-held probe, calibration certificate, and a conductive carrying case fitted with dissipative pink foam.

Features:

- Performs RTT & RTG
- Integrated Data Logger
- Humidity and Temperature Sensor
- Barcode Scanner

Specifications:

- Test Voltage / Test Current: $1 \text{ mA} \leq I \leq 1.3 \text{ mA}$
- High Ohmic range: DC 10V, 100V, & 500V
- Test Range: Low Ohmic Range: 0 to 10K Ohm
High Ohmic Range: 1K Ohm to 1,2T Ohm
- Operation: Battery Operated
- Probes: Two 5lbs with Conductive Rubber
One Hand-Held Probe

Resistance Test Kit**SRM500K**

A digital surface resistance test kit that accurately measures RTT and RTG. Suitable for factory audits and test lab evaluations. The Ohm Metrics SRM500K also measures ambient temperature and humidity.

Features:

- Measures Temperature and Humidity
- Probes: Two 5 Pound Disk Probes
- Carrying Case
- Test Range: 1K Ohm -10T Ohm
- Test voltage: 10V/100V
- Accuracy: + 5%

Portable Resistance Meter**SRM310**

Perfect for periodic RTT and RTG measurement of dissipative and conductive surfaces.

Features:

- Small, Portable Size
- Power: Replaceable 9V Battery
- Test Voltage: Regulated 9V DC
- Accuracy: $\pm 5\%$
- Optional 5lb Weight Kit Available
- Carrying Case

Wrist Strap Tester**WST200**

Quickly and easily measures the resistance of a wrist band and coil cord when worn by the operator.

Features:

- Battery Operated
- Simple Push Button Operation
- Small, Portable Size
- Test Modes: Wrist Strap Only
- Test Voltage: Regulated 9V DC
- Accuracy: $\pm 5\%$
- Test Parameters: Pass: 800K-10M

Static Field Meter**EFM115**

A convenient static field meter used to locate and measure static charges and test the balance of air ionizers. Its compact design and four button operation makes it easy to operate.

Features:

- Digital Display with Numerical Readout and Graphs
- Measurement Range:
Static Voltage $\pm 0 \sim \pm 1.49 \text{ kV}$ (Low)
 $\pm 1.0 \sim \pm 20.0 \text{ kV}$ (High)
Ion Balance Voltage: $0 \sim \pm 200 \text{ V}$

Charge Plate Monitors

Charge Plates Monitors Test Ionizers on Page 12.

288B

The 288B with data storage capabilities measures and stores positive and negative decay as well as ion balance and stamps temperature. Fully programmable test functions, with ability to run a series of automated tests with the push of a button. Comes with bundled software for easy management of your equipment.

Features:

- Stores 1500 Tests, 500 Locations & 4 Protocols
- Manual and Automated Testing
- Fully Configurable Testing
- Software Included

300

The model 300 uses large, high-contrast, alpha/numeric LED displays for easy reading at any viewing angle. Single-button operation of decay tests and balance ensures simple, easy operation. An automated set of tests can be initiated with a single button depress.

Features:

- Measures, Displays and Stores Test Data
- Separate Time and Voltage Displays
- High Contrast, Alpha/numeric LED displays

287A

The model 287A is a low-cost and highly portable alternative to a charged-plate monitor for periodic verification of ionizer performance. It permits ionizer testing at the work location without the need to remove the ionizer from service for testing.

Features:

- Test Balance and Decay
- Low Cost / Performance Ratio
- Hand-held, Battery Operated
- Optional 6"x 6" Plate Attachment

282

The 282 is a portable field meter used for detecting and measuring static potentials. With the optional charger and plate, the 282 can be used to measure ionizer performance.

Features:

- Locates and Measures Static Fields
- Measures Ionizer Performance
- Easy-to-Read Digital Display
- Performs both Positive and Negative Decay Tests

Verification Tools

CAL1000

Designed to verify Wrist Strap and Footwear Testers calibrated to ANSI/ESD S1.1-1998 and ANSI/ESD STM9.1-2001.

PDT78PV

The PDT78PV is designed to verify the PDT series testers on page 22.

CM420PV

The CM420PV is designed to verify the CM400, CM410 and CM420 on page 7.

ESD Office Supplies**ESD Waste Baskets****Features:**

- Carbon Loaded
- 28 Quarts Capacity
- ESD Symbol

Part Numbers

WBAS28 ESD Waste Basket
 WBASLP Dissipative Trash Liner
 WBASLB Conductive Trash Liner

Cleanroom Waste Basket**Features:**

- Cleanroom Waste Basket
- Stainless Steel
- 28 Quarts Capacity

Part Numbers

WBAS28MET Cleanroom Waste Basket

ESD Workstation Cover**Features:**

- Blue Dissipative Fabric
- 4mm Ground Snap
- ESD Symbol

Part Numbers

WC2436 Size: 2' x 3'
 WB4836 Size: 3' x 4'
 WB7236 Size: 3' x 6'

ESD Pens**Features:**

- Fine Point
- Black or Red Ink
- ESD Symbol

Part Numbers

DC2000 ESD Pen, Black, Fine Point
 DC2000R ESD Pen, Red, Fine Point

ESD Sheet Protectors**Features:**

- Dissipative
- Letter Size: 8.5" x 11"
- 2 mm Thickness
- Printed ESD Symbol

Part Numbers

DC1185 Sheet Protectors
 DC1185IDP Perm. Dissipative

Tool Carriers**Features:**

- Conductive Polypropylene
- Comfort Grip Handle
- Four (4) Optional Insert Trays

Part Numbers

TC0839 Tool Carrier, Conductive
 TC0843 Inserts, Conductive

SMD Boxes**Features:**

- Black or Transparent Lids
- Spring Loaded Lid
- Interlocking Tongue & Groove Connection
- 6 Drawer Compartment Box

Part Numbers

| Static Safe SMD Boxes | | |
|-----------------------|-----------------------------|-----------------|
| Black Lid | Transparent | Size |
| SM0873 | SM0880 | 16 x 12 x 15 mm |
| SM0874 | SM0881 | 37 x 12 x 15 mm |
| SM0875 | SM0882 | 40 x 37 x 15 mm |
| SM0876 | SM0883 | 68 x 57 x 15 mm |
| SM0810 | Compartmented Box 6 drawers | |

Static Safe Wiper**Features:**

- No Abrasion
- Low Tribogeneration
- Size: 9" x 9"

Part Numbers

WP6200 Pink Wiper, 9" x 9"

ESD Labels

LB9010 5/8" x 2"

LB9030 5/8" x 2"

LB9050 5/8" x 2"

LB9201 3" x 5"
LB9191 1-1/2" x 3"

LB9020 3/8" x 1-1/4"

LB9040 5/8" x 2"

LB9060 1" x 2-1/2"

LB9070 1-3/4" x 3"

MIL STD 129N/Symbol
LB9083 4" x 4"
LB9082 2" x 2"

Removable Labels
Available

LB9100 4" x 4"
LB9090 2" x 2"

LB9081 4" x 4"
LB9080 2" x 2"
Removable Labels
Available

LB9160 3-1/2" x 3"

LB9180 1-3/4" x 2-1/2"

LB9120 1-3/4" x 2-1/2"
LB9110 1" x 1-1/2"

ESD Tapes

Aisle Marking Tape

Part Numbers

AM2401 Aisle Marking, 2" x 36 yd
AM3602 Aisle Marking, 3" x 36 yd

Anti Static Cellulose Tape

Part Numbers

CL1200 Cellulose: 1/2" x 72 yd
CL1801 Cellulose: 3/4" x 72 yd
CL2402 Cellulose: 1" x 72 yd
CL4803 Cellulose: 2" x 72 yd

Conductive Grid Tape

Part Numbers

CT1204 Grid Tape, 1/2" x 36 meters
CT1805 Grid Tape, 3/4" x 36 meters
CT2406 Grid Tape, 1" x 36 meters
CT4807 Grid Tape, 2" x 36 meters

Anti Static Cellulose Tape, ESD Symbol

Part Numbers

CL1200-P Cellulose, Print: 1/2" x 72 yd
CL1801-P Cellulose, Print: 3/4" x 72 yd
CL2402-P Cellulose, Print: 1" x 72 yd
CL4803-P Cellulose, Print: 2" x 72 yd
